

Trezac App

The Dow AgroSciences Trezac App is available for iOS and android platforms.

Download the Trezac App from the App Store or Google Play [search Trezac]. Alternatively you can also access the Trezac stewardship via the internet: <http://trezac.farming.co.uk>

The Trezac App enables you to:

- Ensure your client understands the label requirements when using Trezac
- Sends an email to your client
- Tracks your client's response (accept or reject)
- Sends you an email to confirm your client's acceptance
- Manage Trezac stewardship for a number of clients

How to use the Trezac App for stewardship reporting

When you initially register with the app you will be asked basic details.

Once submitted, you will be sent an email to confirm your registration (you need to click the link in the email to confirm).

Re-open the Trezac App and it will go directly to the client registration screen

Click + to add a farmer client – enter farmer details (name, address, email)

Once details are entered click on the farmer's name to go to the Stewardship screen form. Enter the area (in hectares) to be treated with Trezac, then press send.

An email is automatically sent to the farmer, and the stewardship appears as “pending” in your app (note that the email is sent from trezac@farming.co.uk not from your email address). The email contains the date of your recommendation, the area to be treated and the terms of Trezac application. Once the farmer has read and acknowledged the terms they press “CLICK HERE” in the email. If they choose to decline there is also an option to reject the agreement. A web page opens on their smartphone / PC to confirm acknowledgement of the stewardship guidelines, a confirmation email is also sent to the farmer and to yourself.

In your app, the stewardship status changes to “accepted” once the farmer has accepted. (May need to close and reopen the app for the status to update).

That's it – the stewardship process is complete.

FAQs on Trezac Stewardship using the Trezac app

- As an advisor, I have no smart phone or tablet, how do I make a Trezac recommendation?
Trezac stewardship is accessible from any PC at <http://trezac.farming.co.uk>
- My farmer client doesn't have a smartphone.
The farmer doesn't need a smartphone to be able to receive stewardship recommendations – they just need to be able to receive an email – this could be on a pc or a smartphone / tablet.
- My farmer client doesn't have the Trezac App, can they still receive my stewardship recommendation?
The farmer doesn't need to have the app to be able to receive stewardship recommendations – they just need to be able to receive an email – this could be on a pc or a smartphone / tablet.
- What if the farmer doesn't have an email address?
In this situation you can use your own email address in place of the farmers email, but please note that as you will now be accepting the terms of Trezac application on behalf of the farmer, it is your responsibility to ensure that the farmer abides by these.
- How does the product get released?
At present, distributors are **not** required to see a record of the accepted stewardship agreement before releasing product, however, some distributors may choose to not release product until they have a copy of the accepted stewardship.
We will monitor the situation with respect to our policy on this and will notify users if there is a change.
